

Transparent inspection window

Clear from dy-pack: The new insight.

Your customers can see at first sight what they are buying thanks to the clear from dy-pack. The transparent panel suits all products where visibility promises a marketing advantage.

Clear visibility and no product contact with the paper.

Transparent inspection window

The advantages from clear at a glance

- Your product is 100 % visible to your customer
- Grease proof
- Optional welded inner plastic film
- Suitable for all current filling machines
- Available on all dy-pack sizes and variants
- Applicable for all products

Application fields

If content visibility offers purchasing clarity then the advantage of clear is obvious. As it is grease proof the clear-system is ideal for animal feeds or foodstuffs containing fats such as cocoa or milk powder. Other sectors such as building materials, chemicals, animal bedding, etc. may also find this useful.
